Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Arabtec Holding PJSC (the "Company") and its Subsidiaries (collectively the "Group") as at 30 June 2011 and the related interim condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six month period then ended. Management is responsible for the preparation and presentation of this interim condensed financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting (IAS 34). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34: Interim Financial Reporting.

Emphasis of matter

Without qualifying our conclusion we draw attention to Note 7 to the interim condensed consolidated financial information which describes a contractual dispute that continues to be subject to arbitration proceedings, the probable outcome of which cannot be determined with reasonable certainty at the date of this report.

The accounting policies adopted are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2010.

The preparation of interim condensed consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the Group's annual consolidated financial statements as at and for the year ended 31 December 2010.

5. Segment information

The Group has five reportable segments: building construction, precast and concrete production, drainage and electromechanical works, marine construction and trading. The building construction segment primarily engages in the construction of high-rise towers, buildings and residential villas. The precast and concrete production segment produces ready mix concrete and precast mainly to serve the building construction segment. The drainage and electro mechanical segment is involved in the execution of the drainage, electrical and mechanical works. The marine segment is involved in marine construction. The trading segment is involved in the trading of heavy equipment and steel.

The accounting policies of the operating segments are the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2010. Arabtec Holding PJSC evaluates performance on the basis of profit or loss from operations before tax expense.

Intersegment sales and transfers are accounted for as if the sales or transfers were to third parties, i.e. at current market prices.

The reportable segments described above are strategic business units that offer different products and services. They are managed separately because each business requires different expertise, technology and marketing strategies. Most of the businesses were acquired/formed as individual units, and the management at the time of the acquisition was retained.

Information about major customers

Revenues from 4 customers of the building construction segment represent approximately AED 717 million (30 June 2010: AED 1.1 billion) of the Group's total revenues.

6. Results for the period

The results for the six month period ended 30 June 2011 reflect the results of the Group's continuing projects and new projects commenced during the period and are not significantly affected by any seasonal or cyclical operations.

Costs that occur unevenly during the financial year are anticipated or deferred in the interim condensed consolidated financial information only if it would also be appropriate to anticipate or defer such costs at the end of the financial year.

Income tax expense arises from the Group's activities in Qatar and the Kingdom of Saudi Arabia and has increased as the activities in these jurisdictions have increased.

7. Contract dispute

On 25 December 2008, Arabtec Construction L.L.C. WCT Engineering Berhad (Dubai Branch) Joint Venture (the "Joint Venture") for the construction of the Nad Al Sheba racecourse in Dubai, in which the Group has a 50% share, received notice from the contract owner, Meydan L.L.C. ("Meydan") purporting to terminate the contract on 9 January 2009 for reasons which management consider did not justify such termination. Subsequently, by way of its notice dated 10 January 2009, the Joint Venture purported to terminate the contract on 24 January 2009 on a number of grounds including failure to pay certified amounts, the Joint Venture's exclusion from the site and Meydan's wrongful calls on the Performance Security and Advance Payment Guarantee.

Notes to the Interim Condensed Consolidated Financial Information - continued
For the Six Month Period Ended 30 June 2011

7. Contract dispute (continued)

Notice of the call of the Performance Security amounting to AED 461.3 million (Group's share: AED 230.65 million) and the Advance Payment Guarantee amounting to AED 77.3 million (Group's share: AED 38.6 million) was received by the Joint Venture on 29 December 2008. Both securities were payable on demand and, on payment by the banks concerned, management has recorded a receivable for the net amount due from Meydan, pending resolution of the dispute. The corresponding liability recorded at the 31 December 2008 year end has since been converted into a loan taken from a bank in 2009 on which Arabtec Construction L.L.C. is paying interest, which will form part of the claim.

On 11 January 2009, the Joint Venture served its request for arbitration. Since then, the arbitration proceedings have commenced and the amount claimed by the Joint Venture is approximately AED 2.8 billion (Group's share: AED 1.4 billion). Management believes, based on continuing legal opinion received, that the prospects of success in the arbitration are good and that no additional provisions for the dispute are required at the end of the reporting period.

In accordance with the Group's accounting policy relating to contracts where the outcome cannot be estimated reliably, revenue has been recognised only to the extent of contract costs incurred to date, which management considers is not doubtful of recovery and therefore no provision has been made against the amounts due from the customer for contract work. No profit has been recognised on the contract to date pending the outcome of the Group's claim and conclusion of the arbitration proceedings.
