United Arab Emirates**

Introduction

We have reviewed the accompanying interim condensed consolidated balance sheet of **Arabtec Holding PJSC** (the "Company") and its **Subsidiaries** (collectively the "Group") as at June 30, 2008 and the related interim condensed consolidated statements of income, changes in equity and cash flows for the six month period then ended and accompanying notes. Management of the Company is responsible for the preparation and fair presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard No. 34 – Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard No. 34.

14. Acquisition of subsidiary (continued)

In applying the purchase method of accounting to the acquisition of Gulf Steel Industries FZC, management, assisted by Messrs. Moore Stephens, Dubai, prepared a purchase price allocation report for determining the value of intangible assets based on the requirements of IFRS 3 – *Business Combinations* and IAS 38 – *Intangible Assets* and made the following determinations and assumptions

- the fair values of tangible assets and monetary financial assets and liabilities at the acquisition date approximate their carrying value in the financial statements of Gulf Steel FZC.
- the fair value of the lease agreement for a plot of land was identified based on the significant savings compared to the average market rental rates charged in the surrounding areas.

The goodwill arising on the acquisition of Gulf Steel Industries FZC is attributable to the anticipated future profitability of the company's products and services and the anticipated future operating synergies from the combination with the Group.

Gulf Steel Industries FZC contributed AED 2.8 million to the Group's profit for the period between the date of acquisition and the balance sheet date.
